

Maple Medical PRU *Young Parents' Centre*

Key Person

In order to meet the individual needs of all babies, this nursery will assign a key person to each baby when they enter the nursery

The key person will help the baby to become familiar with the provision and to feel confident and safe within it.

The key person will meet the needs of each baby in their care and respond sensitively to their feelings, ideas and behaviour.

The key person will endeavour to make close links with the parents of their key babies to make sure that the baby is being cared for appropriately.
