

Maple Medical PRU

Parents' Survey 2021

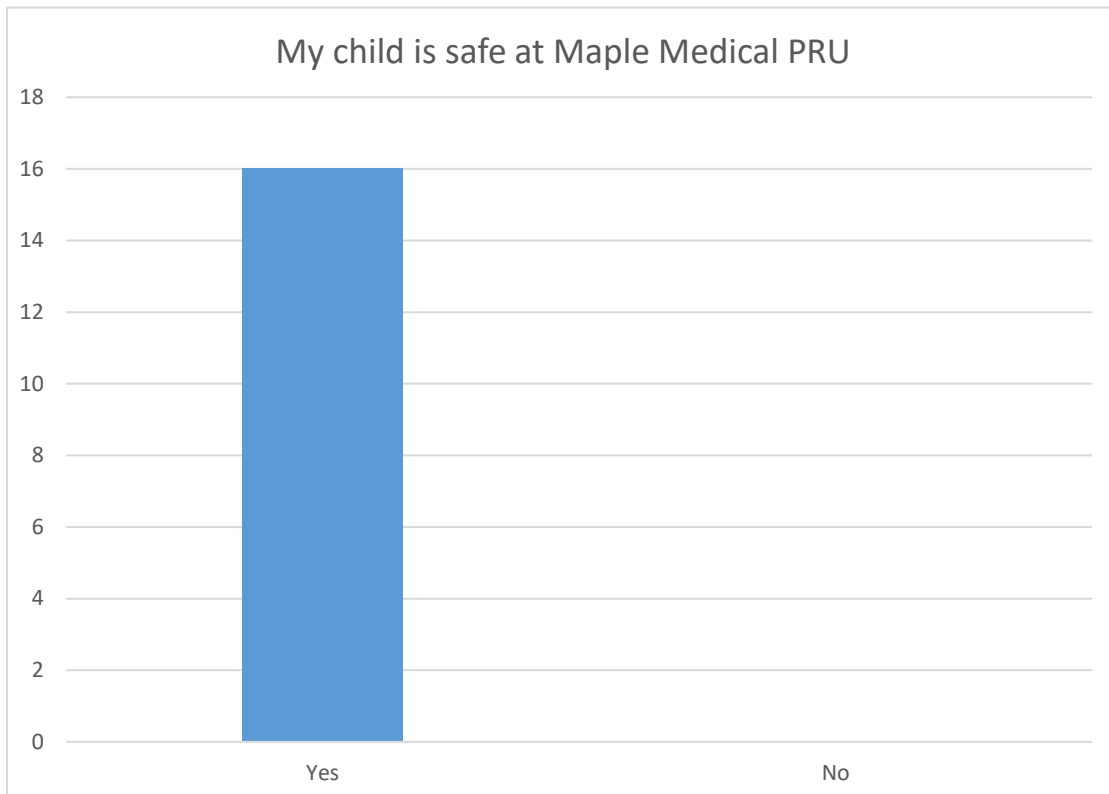

We asked parents to complete a questionnaire on the service that Maple Medical PRU provides. There were 16 respondents from various parts of Maple. The following graphs show the responses.

Question 1

parents who responded felt their child was happy at Maple.

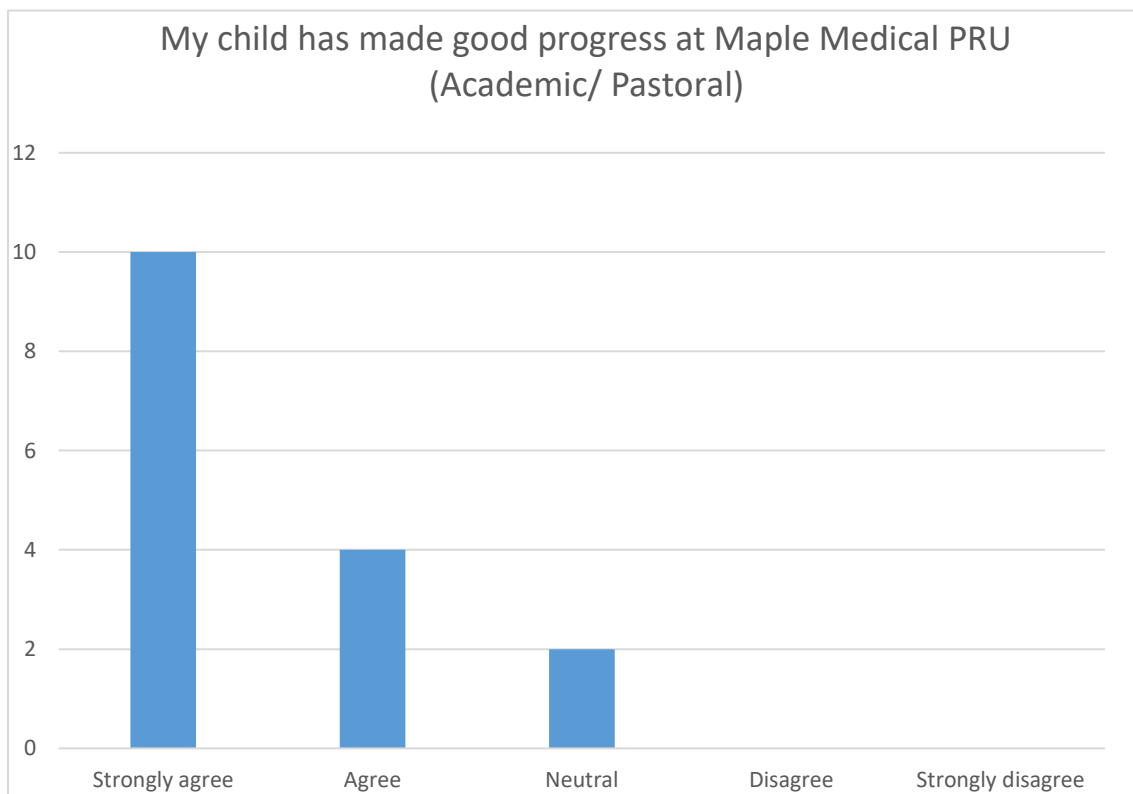

Question 2

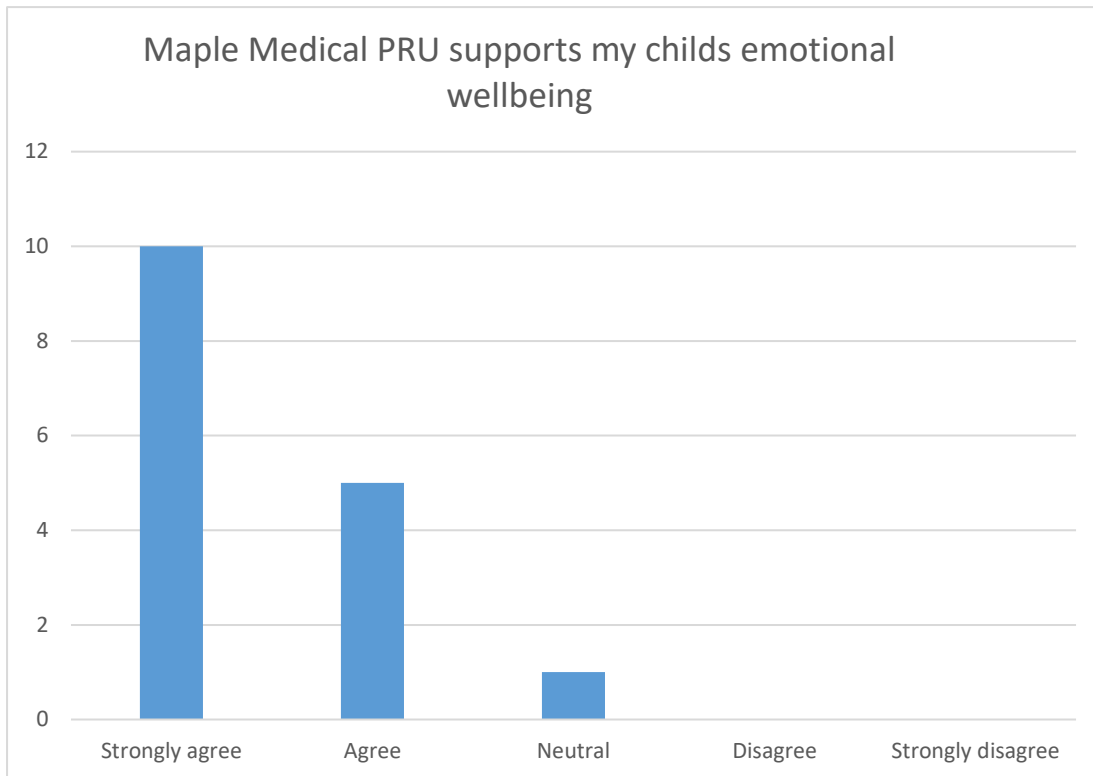

All

respondents felt their child was safe at Maple.

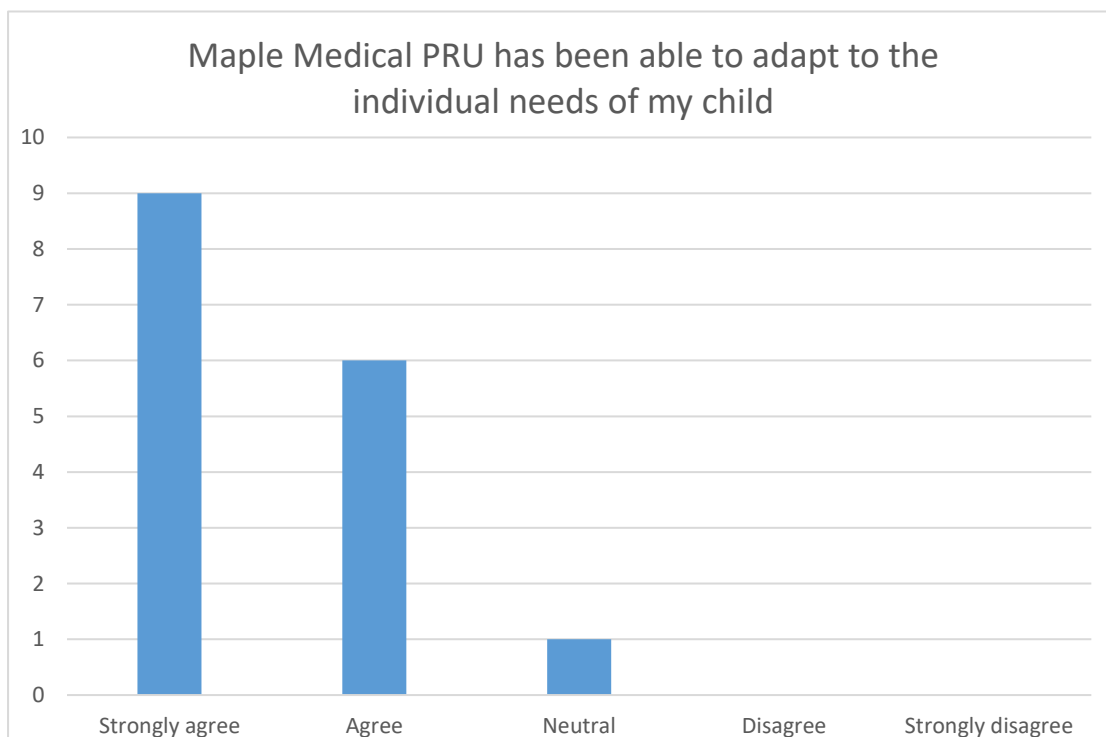

Question 3

Question 8

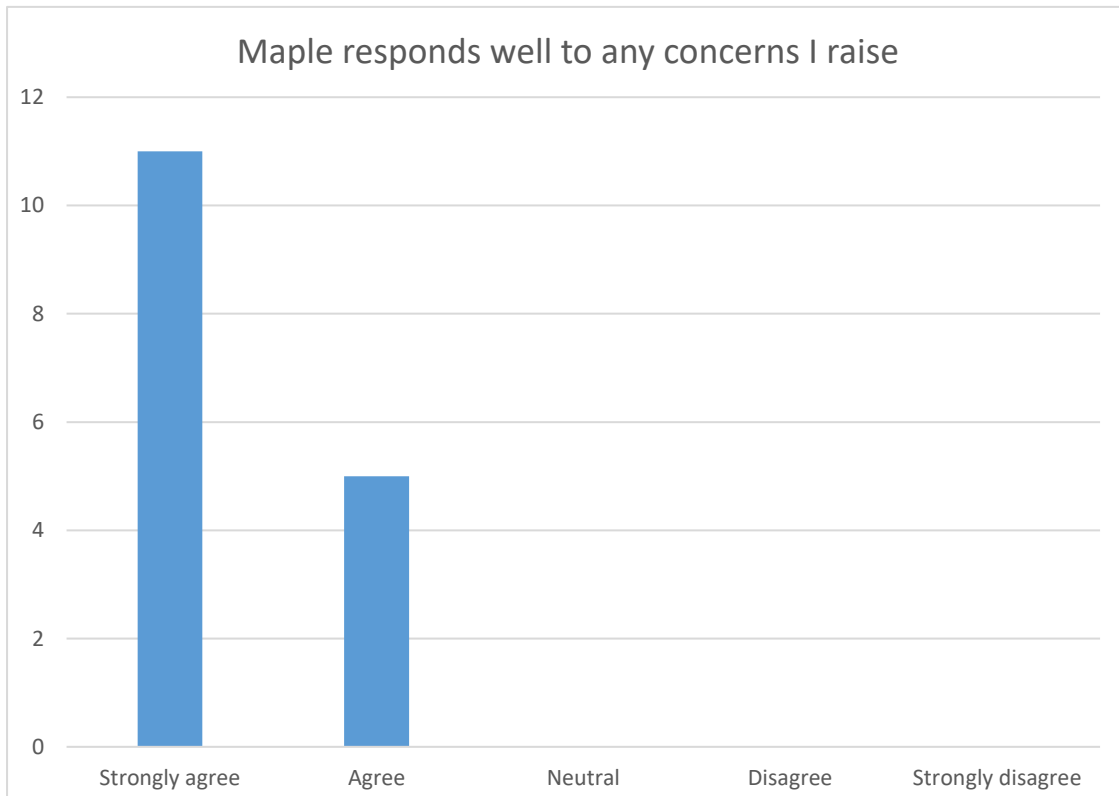

Question 9

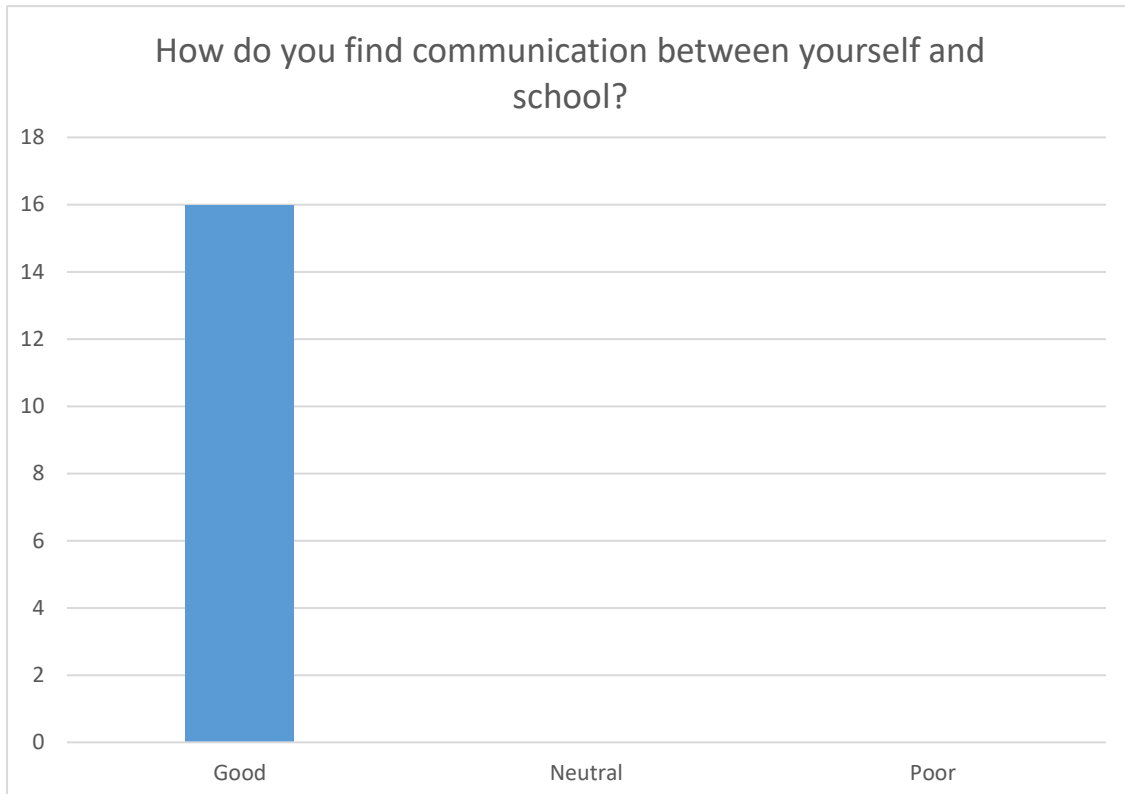

Question 10

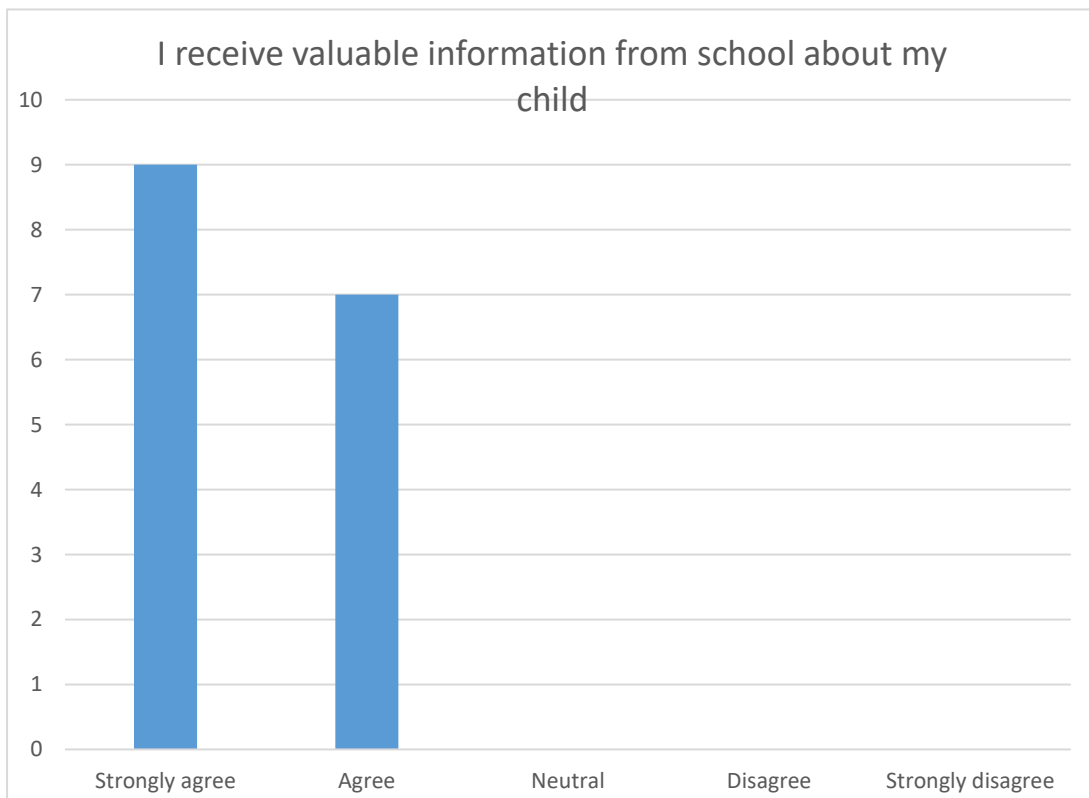

Question 11

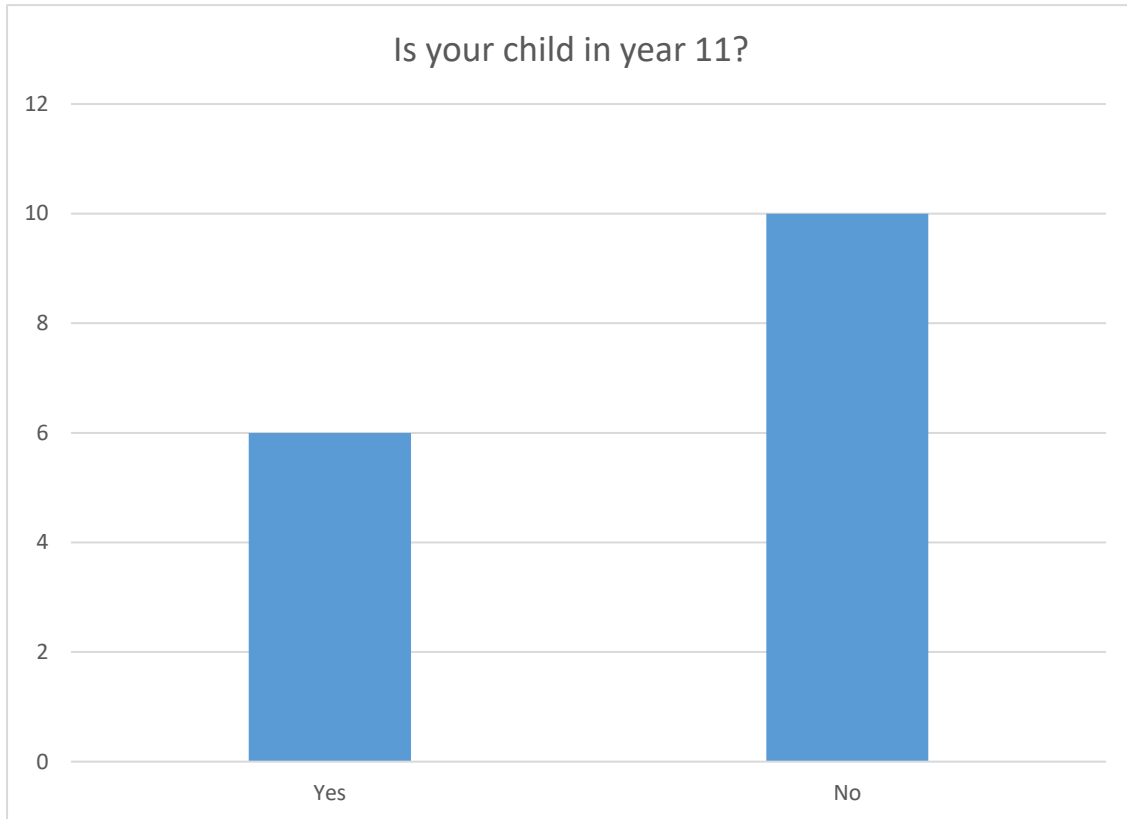

Question 12

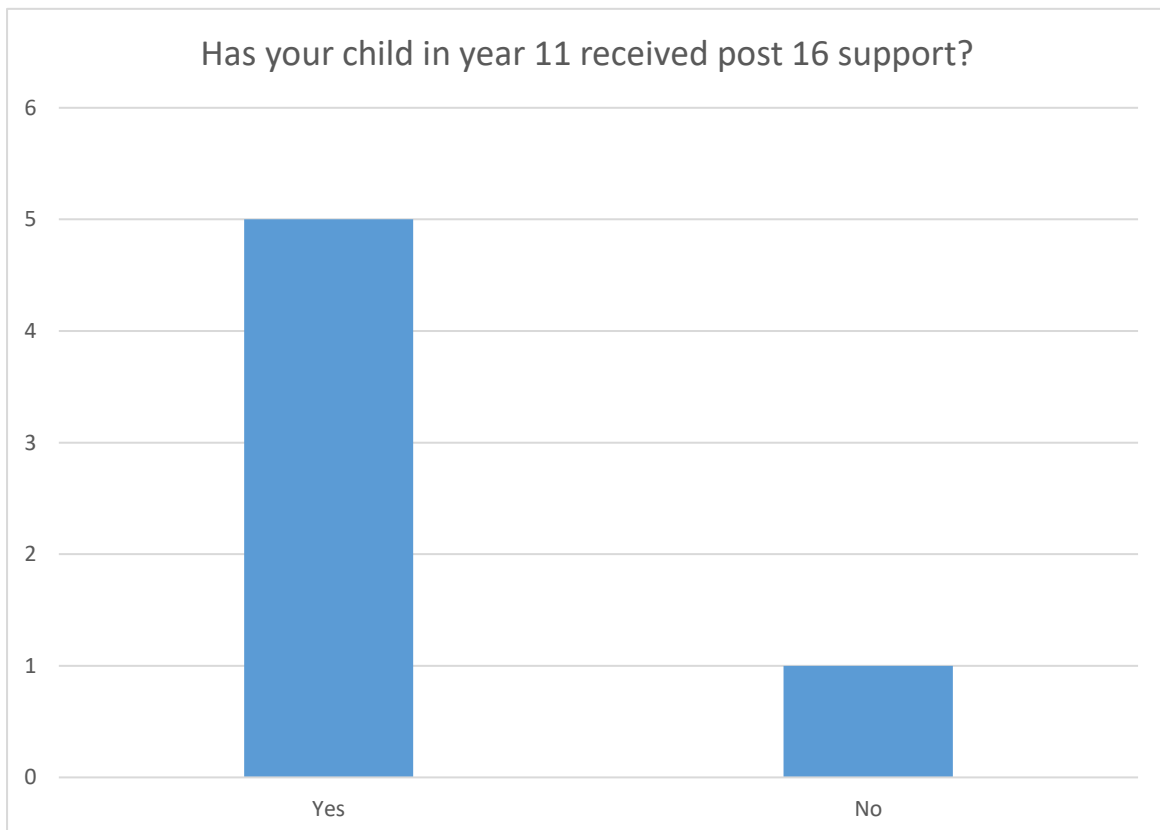

Question 13

Question 14

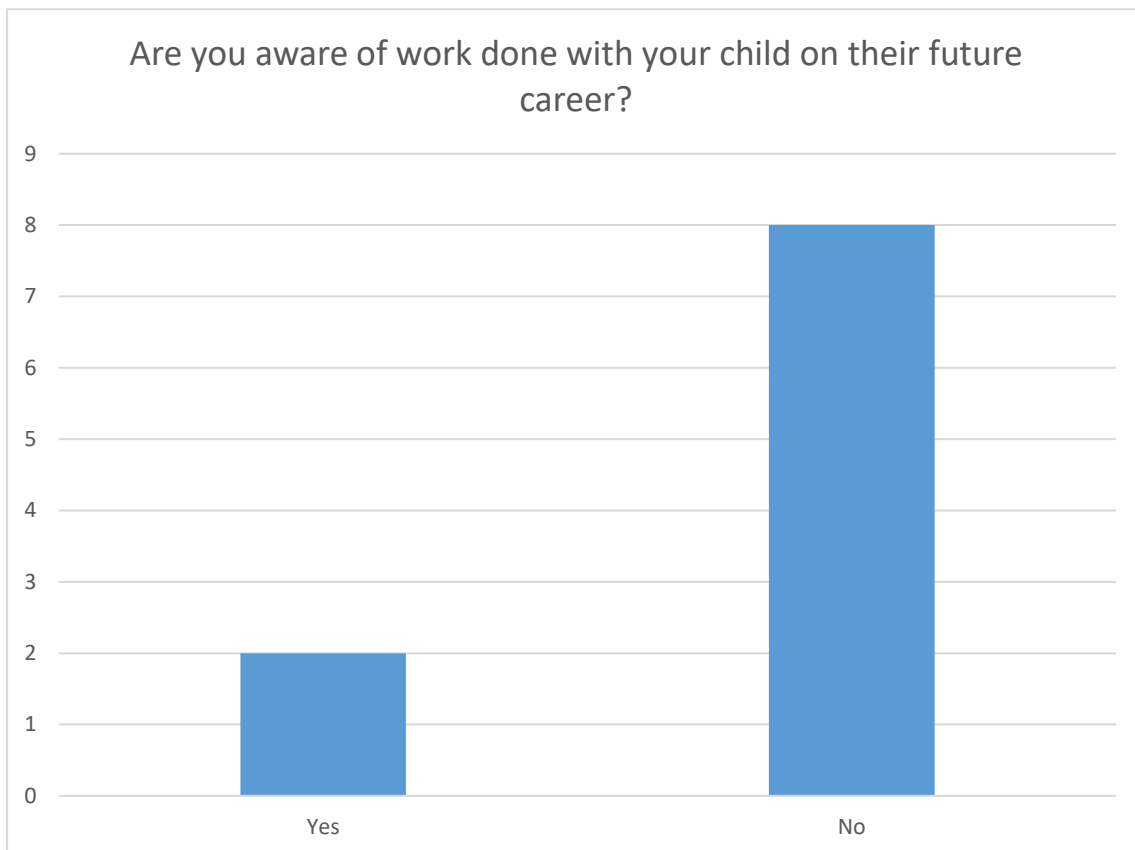

Question 15

We asked parents what support their child has had towards their post 16 destination and answers included the following;

Application forms, C.V.s, talks from outside agencies, one to one guidance, taster days, visits and careers meetings. Apart from the support mentioned, we have also had people in to talk about their specific careers.

Question 16

Work has been done on careers for younger children but parents are clearly unaware of what has been done. This is something that the careers team will address next year to ensure that parents have all the information. We will also work towards raising awareness with pupils about aspects of the curriculum that relate to careers.

Question 17

Half of the parents who responded had not visited our website. This is something that we will be working on next year to raise awareness of the website and its information. We also asked how useful it was to those who had visited it. These are the responses;

Good

Good but not updated enough

Not very useful, it's hard and difficult to navigate

It was lovely but needs term dates on there

As well as publicising the website, we will also be looking at updating it and making it easier to navigate.

Question 18

We asked parents how we could improve and these were the responses;

Some experience of a work placement in KS4

It's all good

We are fairly new and so I cannot comment yet but you have been helpful to make the 'right fit' for my child and that's all I can ask at the moment

The reception area often looks less than appealing with out of date banners etc

We will take on board all of these comments and are aware that the reception area needs an uplift. This will be addressed as soon as possible.

Question 19

WE then asked for any further comments and the responses are as follows;

It's a fab school with amazing support

Maple is a fantastic school and has transformed my daughter's opinion of education. I cannot thank the staff enough

You are amazing

Our school development plan and appraisal targets for staff will all take in to regard comments from this survey.
